Go beyond the fundamental real estate transaction with Regulation and Taxation of Real Estate.
Regulation and Taxation of Real Estate focuses on the various ways that the development and sale of real property is regulated in Oregon.

This 2003 cumulative supplement updates the 1995 edition through 2003 legislation, and adds new case law, OARs, practice tips, and much more. It also examines a variety of complex real estate development issues for you to consider when giving practical advice to your client, and addresses issues such as the following:

- Drafting homeowners’ association documents to achieve your client’s goals
- Tax implications of recording final plats for partitions and subdivisions
- Aftermath of the Lucas, Nollan, and Dolan trilogy
- Tax court’s role in the area of special assessments
- Perfecting liens for special assessments
- Vacation proceedings as land use actions
- New requirements for condominium plats, declarations, and bylaws
- Appealing limited land use decisions
- Latest changes in the building code
- Laws governing real estate licensees
- Electronic disclosures under Electronic Signatures in Global and National Commerce Act
- Interpreting the ADA as it applies to public accommodations

The 2003 cumulative supplement also contains forms on disk, including new forms for unstaged condominium projects and planned communities.

Regulation and Taxation of Real Estate is an indispensable resource to your daily real estate practice and the perfect addition to your reference library.
