How many years have you practiced law either in Oregon or in other jurisdictions?

7, solely in Oregon

Please describe the nature of your practice:

Personal Injury, plaintiff side

Please describe your familiarity or experience with the Rules of Professional Conduct:

I read them all at least once a year, take a variety of ethics CLE to keep up to date, and consult the rules and OSB ethics opinions whenever I have a question. I have called OSB ethics counsel with questions, and even hired my own ethics counsel in one instance where I needed specific advice in a tricky situation.

Please describe your experience interpreting and applying other statutes, rules, or regulations:

I do this every day. Because my cases are defended by insurance companies, much of it is highly regulated by statutes and regulations. Also, since these are injury cases, we have to check for and apply regulations to see if any were broken or ignored that impacted my client's situation.

In addition, I am a trial lawyer, so have to apply the rules of evidence and civil procedure regularly.

Please describe your judicial experience:

None, really. I have judged Mock Trial competitions, which is enough to tell me it is a difficult job, and one to take seriously.

List any regulatory bodies on which you have served:

None, really. I was an office assistant for Office of Administrative Hearings in high school. I helped with the committee writing rules there, but not with much of substance. I assisted with "scribe" work for the committee that was working on amending the Oregon Judicial Code of Ethics while I was in law school, but again, not with much of the substance.

Please describe any other experience that you believe qualifies you to serve on disciplinary trial panels:

I have practiced in Southern Oregon for about 7 years, and am a trial attorney, so I understand that there are two sides to every story.

Have you ever been the subject of any disciplinary proceeding in connection with your practice of law in any jurisdiction? If so, please identify the jurisdiction and the final disposition of the matter, including the sanction imposed, if any.

No.

Has anyone related to you ever been the subject of any disciplinary proceeding in connection with his or her practice of law in any jurisdiction? If so, please identify the person, his or her relation to you, the jurisdiction and the final disposition of the matter, including the sanction imposed, if any.

No.

How many years have you practiced law either in Oregon or in other jurisdictions?

I have been practicing law since 2006.

Please describe the nature of your practice:

I am a sole practitioner specializing in employment law and working with small businesses. I do some litigation and some transactional work.

Please describe your familiarity or experience with the Rules of Professional Conduct:

I do not have a lot of familiarity with the RPC, but have become more familiar over the last few months as I work on an attorney's lien case for a colleague where accusations of malpractice are being raised.

Please describe your experience interpreting and applying other statutes, rules, or regulations:

I have a lot of experience interpreting regulations, statutes and rules, first as an ERISA attorney, then working with regulatory agencies at Portland General Electric, and now with employment law.

Please describe your judicial experience:

I have served as a judge for mock trial competitions and Jessup moot court competitions.

List any regulatory bodies on which you have served:

None.

Please describe any other experience that you believe qualifies you to serve on disciplinary trial panels:

I think my work in multiple disciplines for all different types of parties helps keep me neutral and fair.

Have you ever been the subject of any disciplinary proceeding in connection with your practice of law in any jurisdiction? If so, please identify the jurisdiction and the final disposition of the matter, including the sanction imposed, if any.

No

Has anyone related to you ever been the subject of any disciplinary proceeding in connection with his or her practice of law in any jurisdiction? If so, please identify the person, his or her relation to you, the jurisdiction and the final disposition of the matter, including the sanction imposed, if any.

No.

How many years have you practiced law either in Oregon or in other jurisdictions?

16 Years

Please describe the nature of your practice: Estate planning, probate and trust administration. I practice primarily on large estates and within those areas work on tax issues, setting up businesses, transitioning businesses and business succession, real estate, and estate and trust litigation.

Please describe your familiarity or experience with the Rules of Professional Conduct: I have read and applied the rules of Professional Conduct and have on occasion called the Bar ethics counsel to discuss issues and get guidance before taking action in a matter. I have assisted my partners and associates interpret the rules of professional conduct on several occasions. While on the executive committee of the estate planning counsel I helped analyze possible suggestions for changes to the Rules of Professional Conduct specifically with respect to representing spouses in estate planning.

Please describe your experience interpreting and applying other statutes, rules, or regulations: I interpret statutes all the time in my practice. I am licensed in Washington and often times have to administer documents that were drafted in other states but have their situs in Oregon. Because so much of my practice has tax issues I interpret the Internal Revenue Code and Treasury Regulations on a regular basis. I also am regularly applying the supplemental local rules and the UTCR's for my probate and trust administration cases.

Please describe your judicial experience: I do not have any direct judicial experience. I am a trained mediator and have mediated cases for parties. I have consulted as an expert on some malpractice cases, i.e. discussed community standards and the rules of conduct as they apply in my area of expertise and applied them to the facts and circumstances of a case.

List any regulatory bodies on which you have served: I do not recall serving on any regulatory bodies.

Please describe any other experience that you believe qualifies you to serve on disciplinary trial panels: My area of the law is one which sadly, many attorneys think they can dabble in. Additionally, estate planners also often represent multiple generations or branches of the same the family. The area is rife for breaches of the rules of professional conduct and as such I strive to be extremely cognizant of those landmines. I also represent fiduciaries and act as a fiduciary regularly often times at the court's request, which I believe gives me a good client's perspective on the duties of the attorney representing them.

Have you ever been the subject of any disciplinary proceeding in connection with your practice of law in any jurisdiction? If so, please identify the jurisdiction and the final disposition of the matter, including the sanction imposed, if any.

No.

Has anyone related to you ever been the subject of any disciplinary proceeding in connection with his or her practice of law in any jurisdiction? If so, please identify the person, his or her relation to you, the jurisdiction and the final disposition of the matter, including the sanction imposed, if any.

Not that I am aware of. Neither of my current partners have ever had a disciplinary proceeding.

Q11 Describe why you are interested in serving as a public member of the Oregon State Bar. Include information not already mentioned about yourself and your experiences and background that supports your interests.

I have recently cut back on my work preparing for retirement and am interested in assisting with more volunteer services. I also recently came off several boards with the City and Multnomah Athletic Club, took a year off and am now ready to look at a new volunteer activity. Finally, my wife is a lawyer (in a position she does not allow me to name) and I have had many contacts in the legal community and would very much enjoy on a board tied to the legal profession.

Two things I could not mention in the prologue questions, I participated as the PURB member for dispute resolution with the City's Bureau of Environmental services and Water Bureau and worked to settling disputes concerning BES and Water charges. This helped me to work closely with the community to protect citizens rights and ensure the rules and regulations of the two bureaus were met. The second, I was board chair of St. Andrew legal clinic (back before my wife was a lawyer) and worked closely with the legal community that supported disadvantaged citizens. I have worked indirectly with the profession without being a lawyer and have a deep appreciation for the integrity and the ethical standards to which the profession must meet.
