

## Oregon State Bar Launches New Email Platform

The Oregon State Bar is pleased to announce the launch of a new email platform. This new tool will allow members to update their email preferences and tailor their preferences to their needs. The new platform will use the primary email address on file with the OSB for all communications. For members who have been using a secondary email for OSB messages, we recommend setting a rule in their email system to direct OSB content to another address or folder for ease of access.

Members can update their email preferences with the new tool, which takes approximately five minutes. To update your email preferences, click on the "update h Yf email preferences" link in the email you received from the OSB. You will be asked to confirm your new email address and preferences. Once you have updated your preferences, you will receive a confirmation email. If you need assistance, please contact our support team at [it-support@osbar.org](mailto:it-support@osbar.org).

Beginning later this spring, we expect to reduce the volume of emails as we begin to aggregate and curate content based on members' email preferences. This has been a longtime desire of the membership, and we look forward to everyone seeing an improved product in the coming weeks. Please direct any questions or input to [feedback@osbar.org](mailto:feedback@osbar.org).
