Most lawsuits are not determined at trial. The effective use of motions can make or break your case. With perspectives from both plaintiff's and defense counsel, our seasoned litigators will share valuable insights and practice tips to strengthen your motions. Examine effective ORCP 21 and FRCP 12 motions and learn how to craft a discovery plan tailored to your case. Discover ways to effectively argue (or oppose) summary judgment motions before the court, and take a look at trial motions, including motions *in limine* and motions for a directed verdict or mistrial. Post-trial motions will review JNOV, new trials, and remittitur. In addition, review ethical considerations for motion practice and gain an understanding of anti-SLAAP motions.
